LESSEAU® Solid Hand Wash Bars

A clean, simple, sustainable choice

The LESSEAU® Solid Hand Wash System pairs patented, precision-engineered dispensers with Eco-certified solid hand wash bars to deliver a premium, waste-free solution. With zero plastic waste and exceptional performance, it's hand hygiene that benefits both the user and the planet.

Take your sustainability offering to the next level with our three expertly formulated hand wash bars, designed to impress users while meeting the demanding needs of professional environments.

Mille Fleur: Beautifully Floral

- A mild floral scent and skin friendly ingredients that leaves hands feeling fresh and cared for

PureSense: Beautifully Gentle

- Eco certified (Ecocert COSMOS Natural) & non fragranced
- Ideal for sensitive skin

NaturFresh: Beautifully Fresh

- Eco certified (Ecocert COSMOS Natural)
- Mildly fragranced for front-of-house environments
- Developed in response to Corporate Account customer requests

Ecocert COSMOS Natural Certification

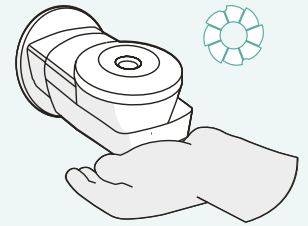

A globally recognised standard for products made with natural-origin ingredients. This certification ensures environmentally responsible production, rigorous safety standards, and full ingredient transparency-helping you demonstrate your commitment to responsible sourcing and clean, conscious care.

Why distributors love LESSEAU

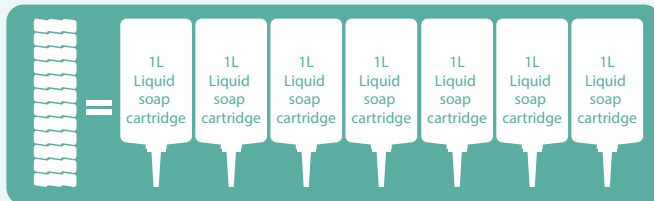

1 Be the market leaders with award winning concept and patented technology

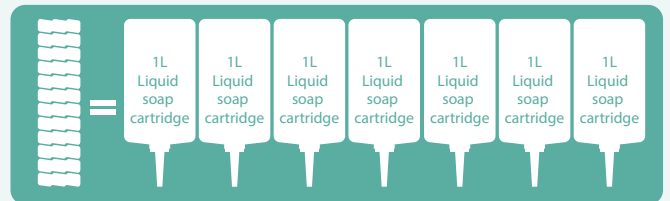

= Stylish captive system for repeat customer orders (€€€)

2 Smaller and lighter hand wash bars (95% less water transported)

= Much less storage space and transport costs (1 vs 38 pallets)

3 Reduce your Carbon footprint (12kg CO2 savings per dispenser per year!!)

= Meet your sustainability targets (lead the way in sustainability for Hand Hygiene)

LESSEAU Hand Wash Bars more than hand wash.

- Rich, creamy lather delivers a premium, memorable user experience
- No plastic packaging and no liquid-soap residue
- Up to 600 activations per bar, reducing refill frequency
- Compact format lowers CO₂ emissions in storage and transport
- Supports ESG and sustainability targets without compromising performance
